30" THROTTLE EXTENSION KIT

The PGD3200X Titan Post Driver with the PGDEHK, 30" extended handle kit is designed for driving taller, hard to reach posts. The additional PGDLHKX applied to the top of the driver makes carrying and handling the driver easier.

The Titan 15" or 30" Extension Handle Kit can be added to either the PGD2000X or the PGD3200X Titan X Series Post Driver for driving taller, hard to reach posts. The kit includes a throttle assembly with on-off auto reset button and trigger throttle, lower formed angle handle with cushion grip and Titan exclusive center mounted formed straight handle with cushion grip for additional structural integrity, balance, and ease of handling. Hardened steel bolts with Nord-Lock washers combined with knurled couplings provide strong, tight connections. A throttle junction box and quick connect wire harness allows for dual throttle control.

All Titan Post Drivers ship in rugged poly carry cases, include a reducer sleeve, tools, extra grease. Handle kits are purchased and shipped separately and must be installed. Image is the PGD3200X with the PGDEHKX installed.
