HONDA

POWERFUL, LIGHTWEIGHT, & COMPACT

The PGD1032H is Titan's hardest hitting Farm & Home Series driver with up to 50% more impact power than the other Farm & Home Series, 4 Stroke powered drivers.

Powered by a Honda GX35 engine, this totally self-contained driver is lightweight and easy to lift, move, and carry. No hoses to maintain or drag. Drives posts, pipes, ground rods, and stakes in less time or with reduced physical effort compared to using a manual driver. The hardened steel barrel accommodates materials up to a maximum of 3" in diameter. No fuel mixture is required.

The PGD1032H's threaded, hardened steel barrel quickly and easily accommodates the three interchangeable steel barrel sleeves included. Barrel sleeves are 1", 1.75", and 2.5" and are secured with the barrel cap. The steel, full barrel reducer sleeves ensure focused impact and a straighter drive. A sturdy protective case, engine oil, extra grease, and tool kit are also included.
